

## Main page CBC news

- CBC news button: Link to main page
- Menu button: Link to Navigation menu
- Search button: Link to Search result
- Login button: Link to User profile

All the article images, text below the article images (labelled as 'some text') are linked to article page.

The interested topics section is using examples, should be personalized by users.

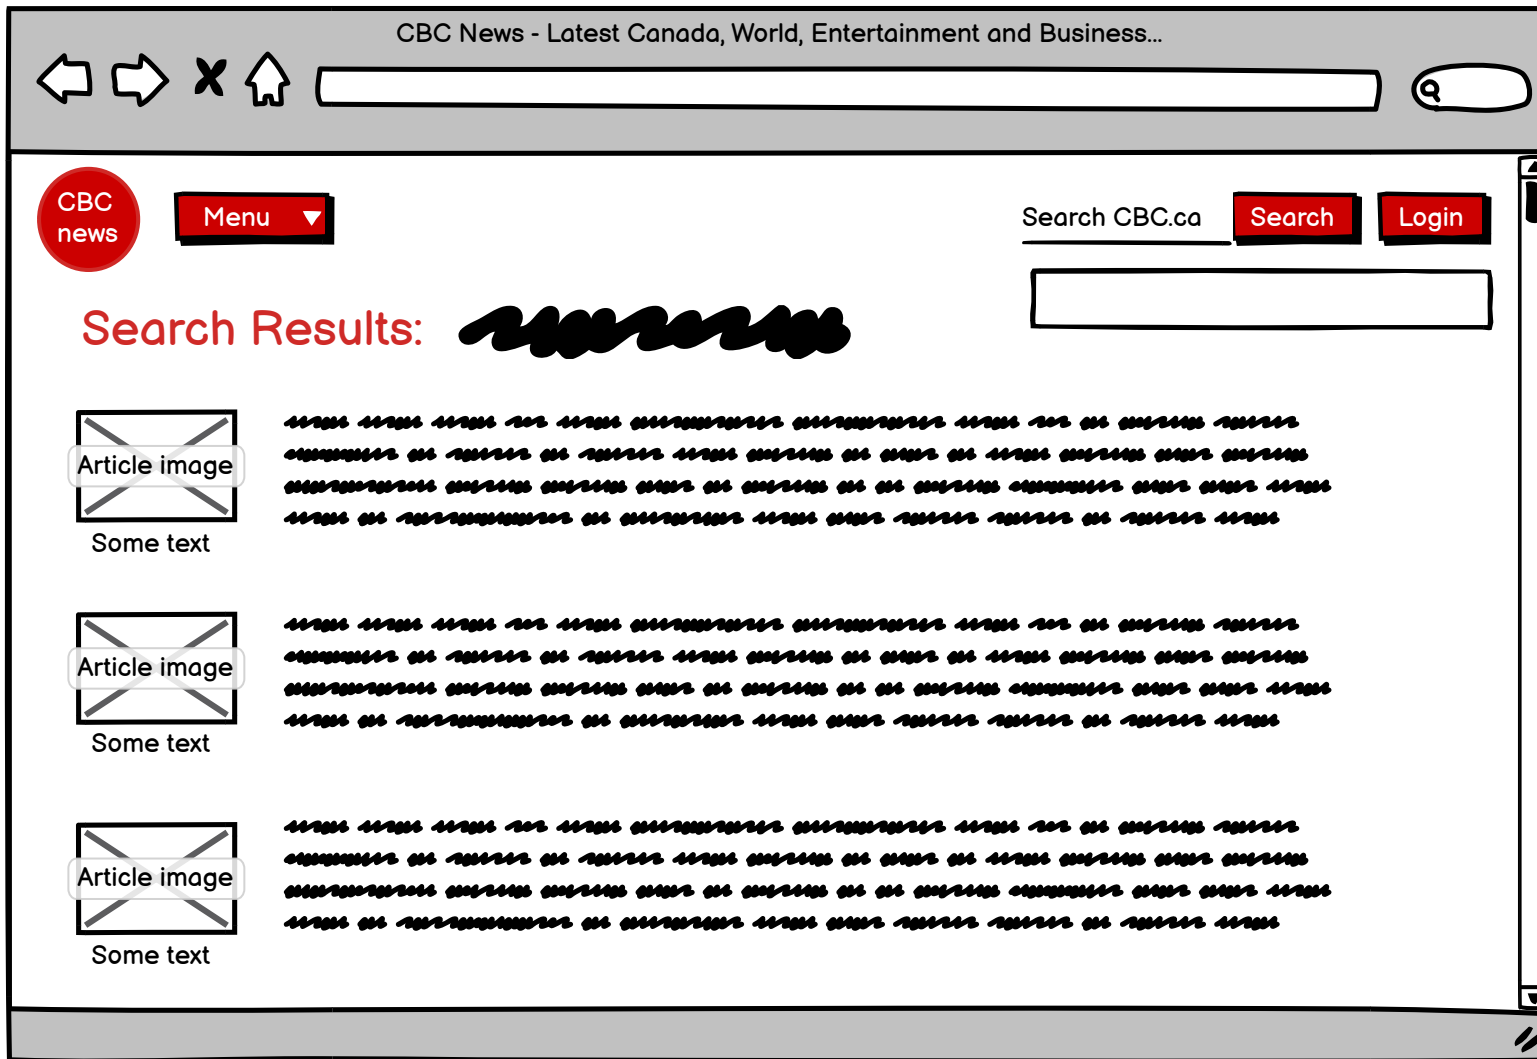

Updated Design: Less contents showing, all sections are only showing two article overviews

## Navigation Menu

CBC news button: Link to main page  
Menu button: Link to Navigation menu

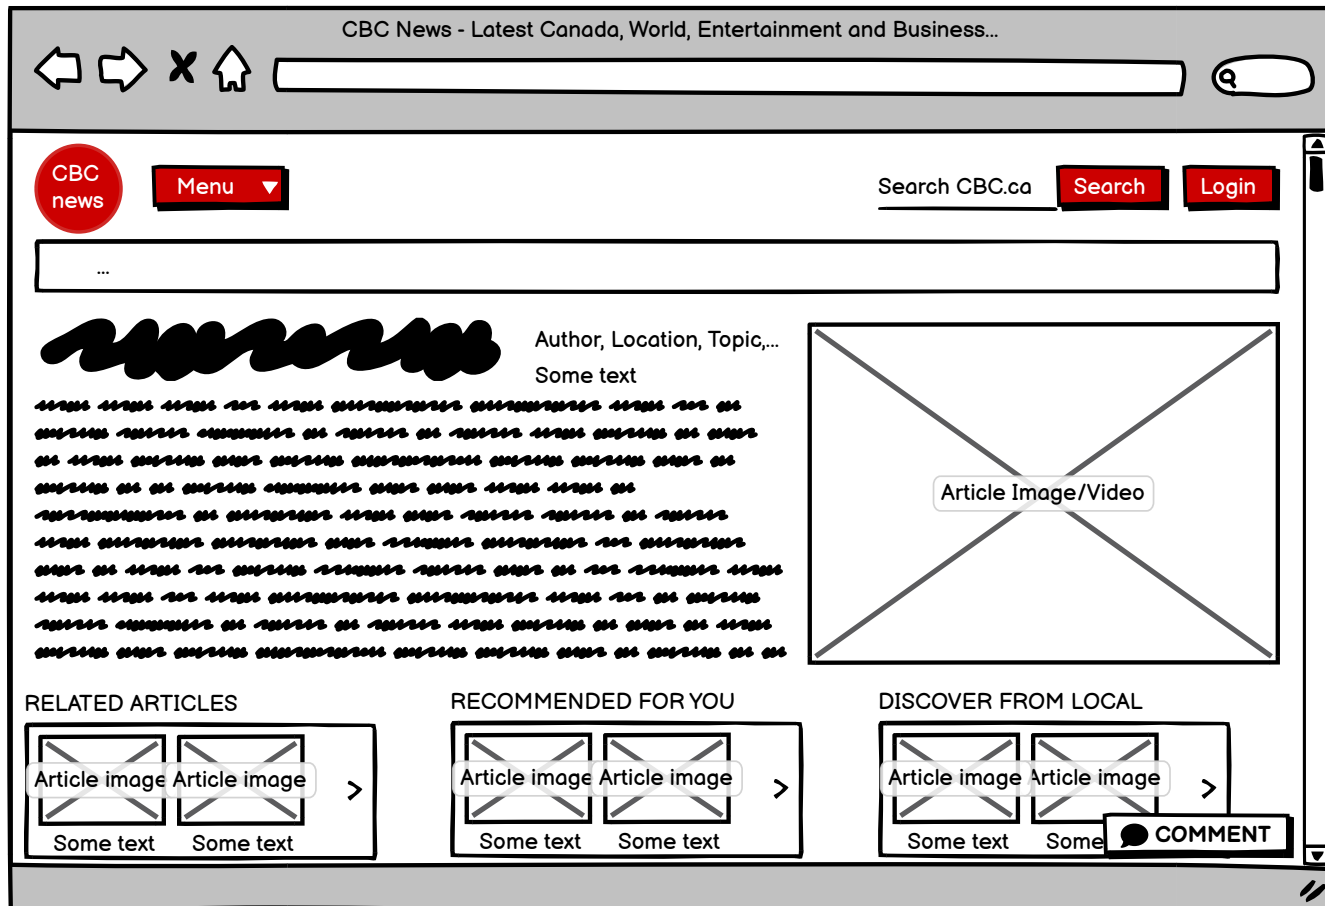

Since go back isn't allowed, the menu button is linked to itself and the x-mark returns to the main page.

## Search page

- CBC news button: Link to main page
- Menu button: Link to Navigation menu
- Search button: Link to Search
- Login button: Link to Login

All article images and 'some text' are linked to Article page

## Article page

CBC news button: Link to main page

Menu button: Link to Navigation menu

Search button: Link to Search result

Login button: Link to User profile

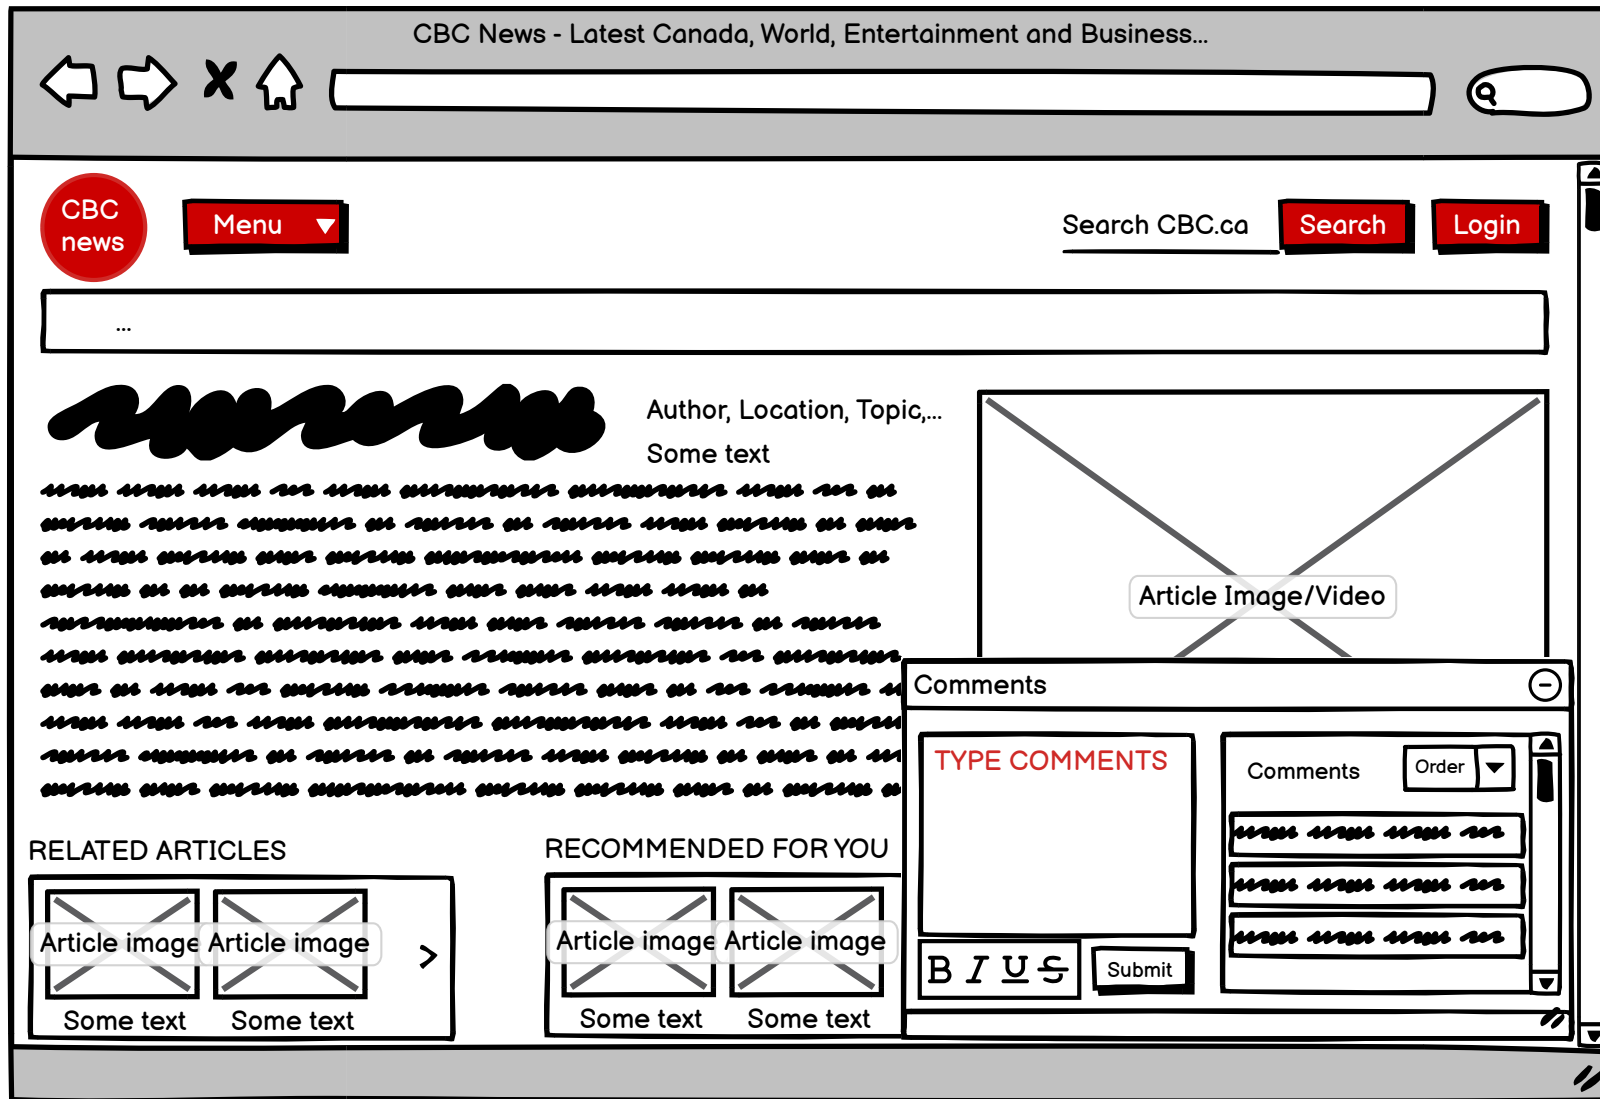

Comment button: Link to Comment page

Article Image/Video button: Linked to article video page

Updated Design: Comment section is now a pop-up window that users can minimize or open based on needs

Updated Design: Layout organized as mentioned in Design 2 sketch with some minor changes.

Article image/video links to Article video page, assuming it's redirecting to the video

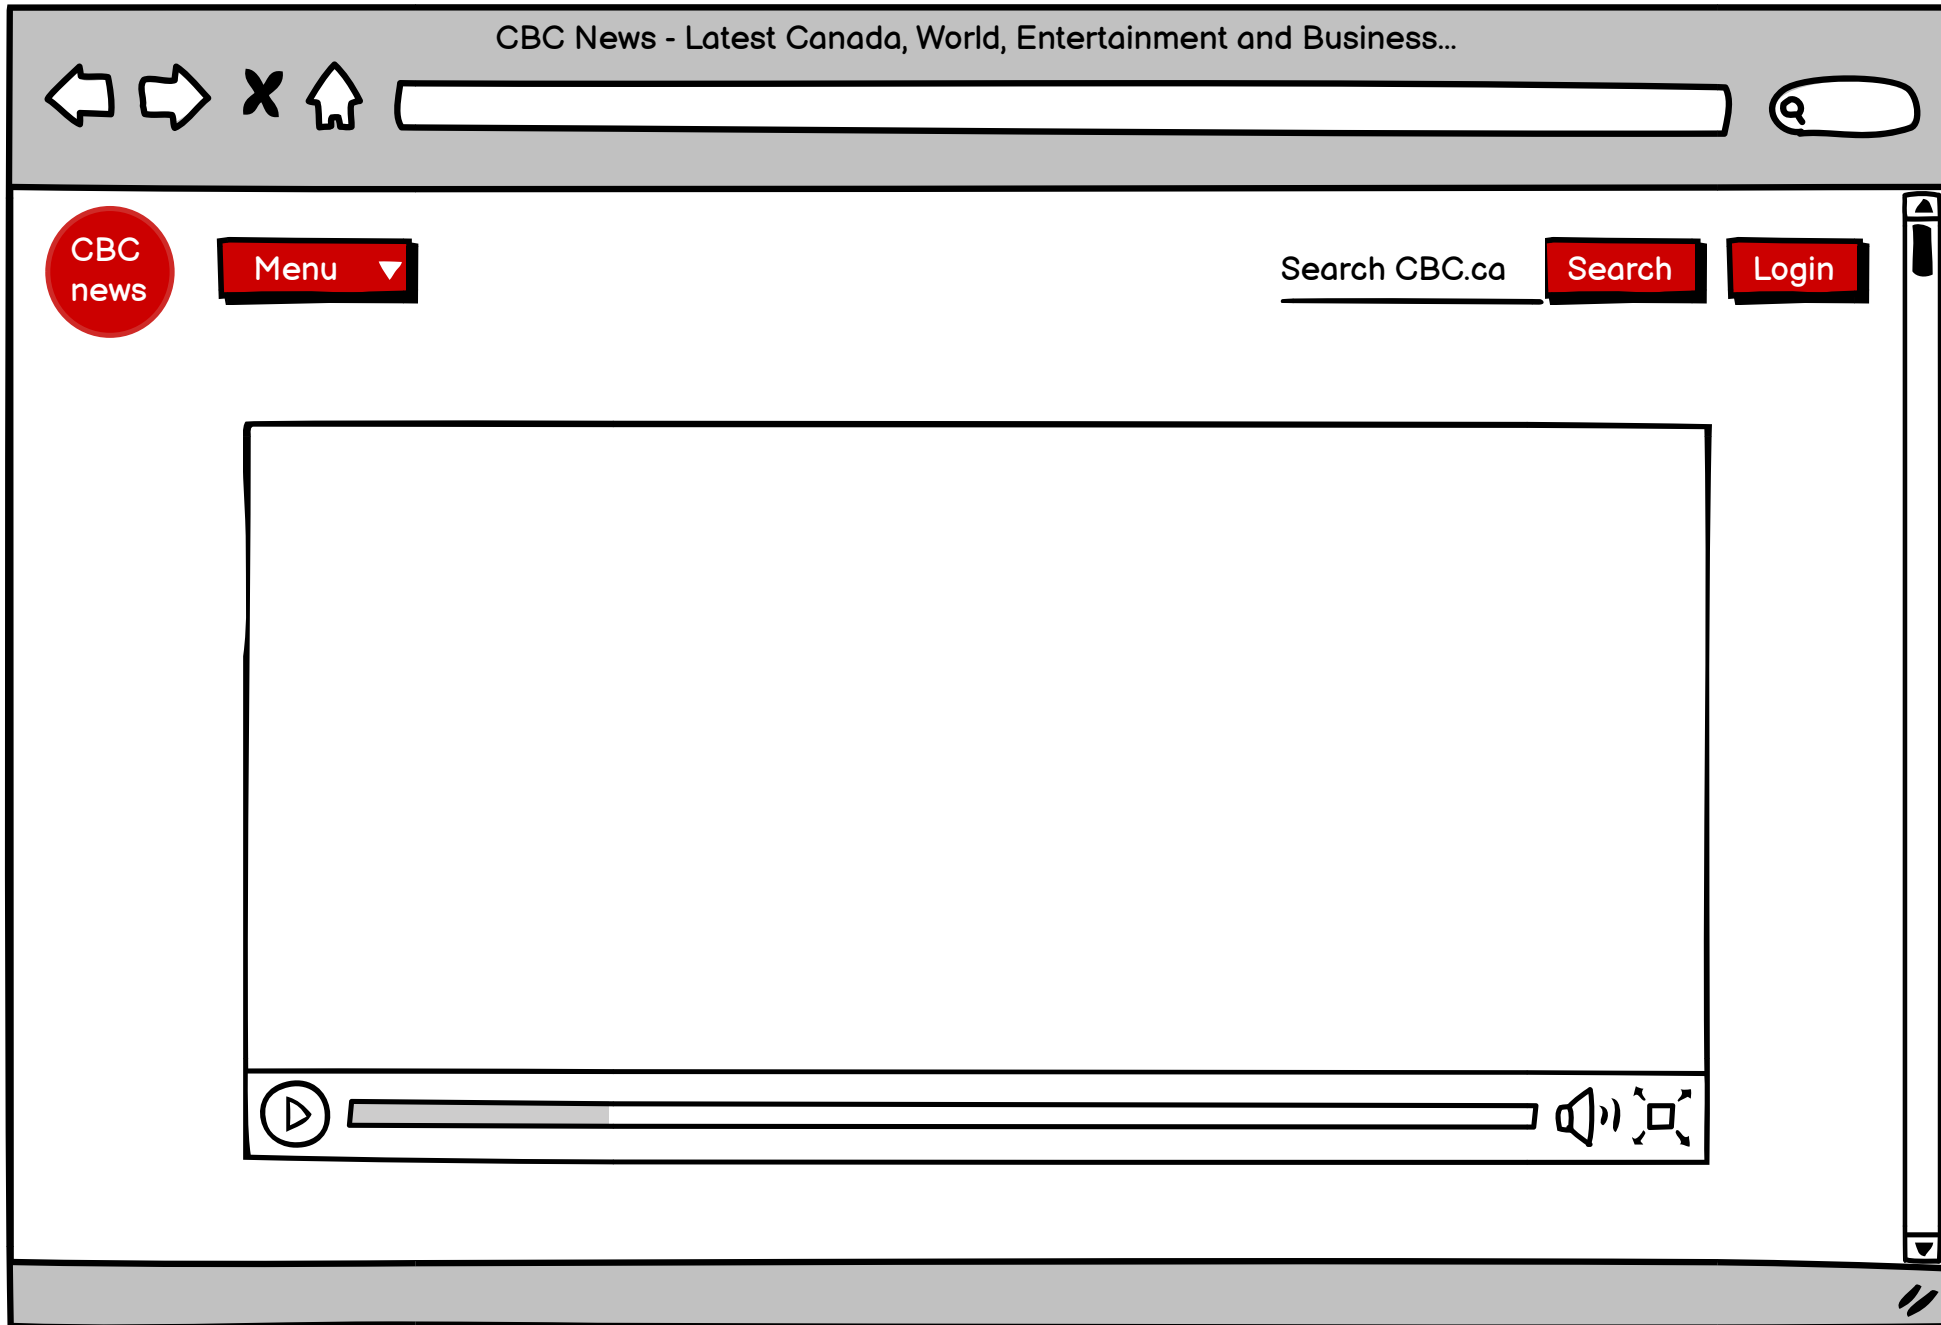

Article page with comment opened

it should be a movable pop-up window originally

The x-mark on comment window minimizes the pop-up window

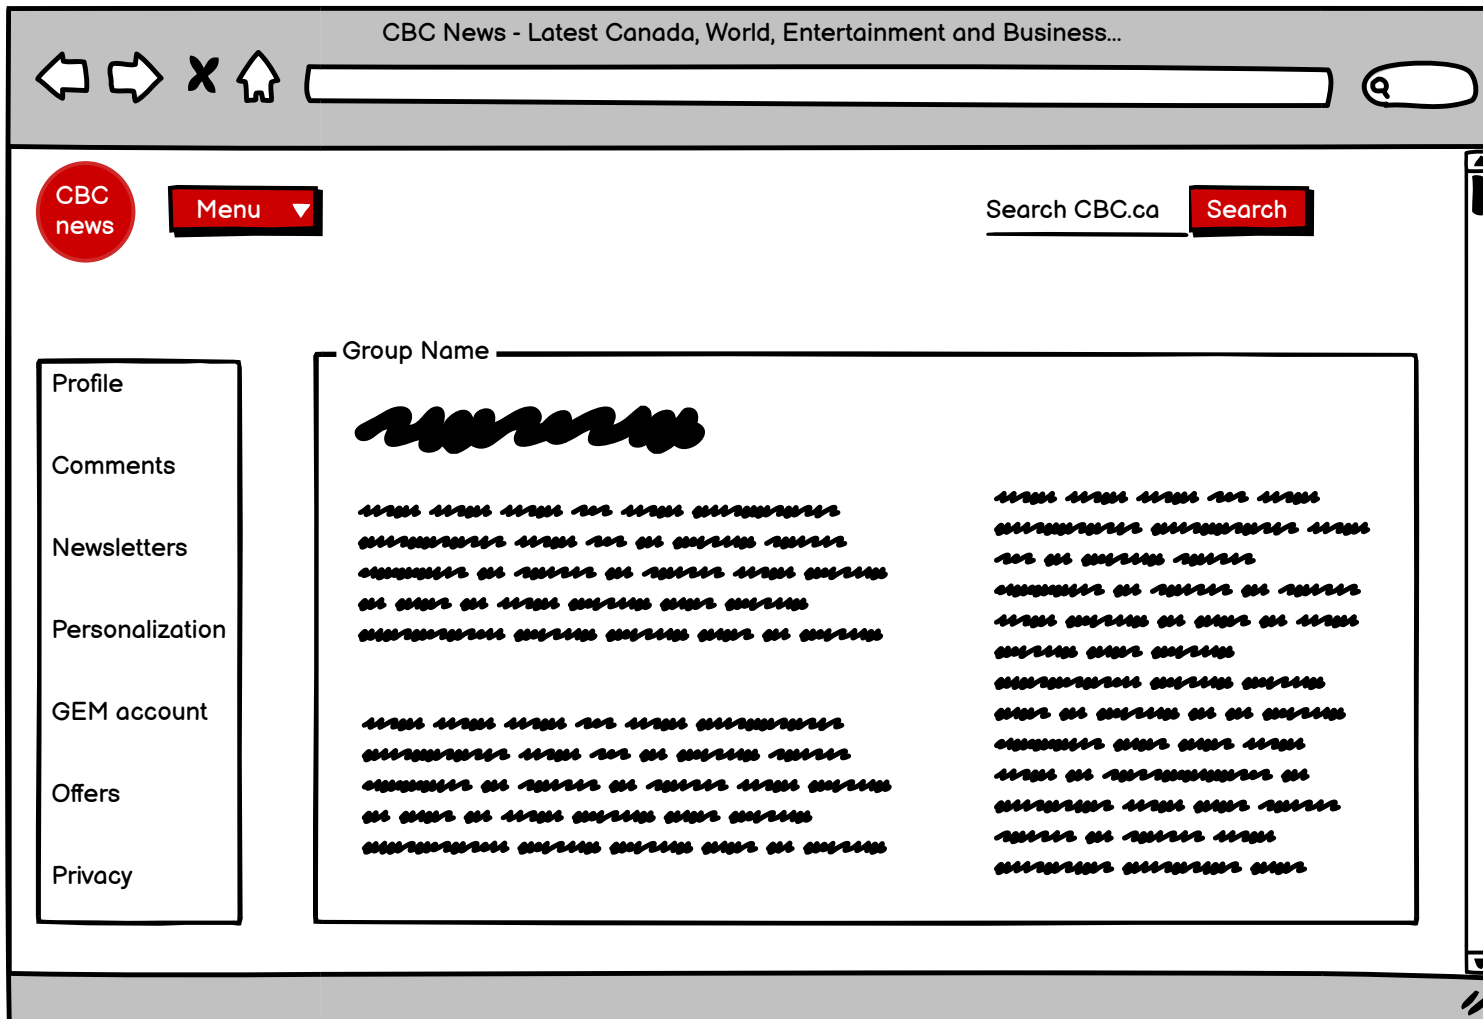

Submit links to this page

All article images and some text link to this page

Article video page

This is the page for clicking on the article video from articles

## Login page

CBC news button: Link to main page  
 Menu button: Link to Navigation menu  
 Search button: Link to Search result

Assume the user is logged in already

Added personalization in the user profile, as addressed in Question 1d

Profile, Comments, Newsletters, Personalization, GEM account, Offers, and privacy all linked to themselves
